Dearest Pam,

Pursuant to our promises as being Anonymous (specifically the two promises of ten more rising up and destroying The "Church of Scientology" in its current form), it is certain and being confirmed that ten more have in fact risen up. At least three have been upon my own personal observation here locally where I am.

In case you haven't been monitoring us that much (which is highly doubtful), it is my honest opinion that your understanding of the situation would be furthered if you were made to understand the term "footnuke".

Footnuke came from the term "footbullet". It was originally used to make the point that the target of the conversation (which laughably was most often the "Church" of Scientology) was shooting themselves in the foot. Ergo, a worse situation would be a footnuke, doing far worse damage than a simple "footbullet".

The footnuke that you have perpetrated here is that you went against a young 20-something who could very easily make your interactions with him public in a very short length of time. You went after somebody who could expose you, and even if he cannot speak out again, we know who YOU are, we know what YOU have been doing, we know WHERE you are, and we are many.

You have done bad things. You have tried to bring us down. We are in it for the long run. You cannot destroy us.

Best wishes,
Anonymous

We are Anonymous.
We are Legion.
We do NOT forgive.
We do NOT forget.
Expect us.
